AI MEETUP

CERTIFICATE

Achievement unlocked!

This certificate confirms that

Abdurrauf Sakenov

took part in the «AI Meetup» and got acquainted with modern approaches to working with AI systems. The following topics were discussed in detail during the event:AI systems development in banking is evolving.

- AI systems are being actively used.
- AI reliability and result reproducibility are being ensured.
- Graph models reveal hidden data connections.
- RAG systems' accuracy is being enhanced.
- RAG response quality depends on multiple factors.
